Carrier Customer Bulletin

Date: June 17, 2011
Notice #: CCBFTR00140
Audience: Acquired WV CLECs/IXCs/CMRS
Subject: PIU Reporting - WV Acquired
Effective Date: October 1, 2011

Effective October 1, customers should ensure quarterly PIU reporting is made as outlined in the tariff FCC No. 4, Section 2.3.10. With the October billing, all PIU billing indicators will be turned on (if not already done so based on inquiries) to pull the reported jurisdictional indicators as opposed to the last filed percentages acquired from Verizon. This change primarily affects dedicated transport on T1s associated with the trunks but reporting should cover all services outlined in 2.3.10 (1) (b) of the tariff. Your next quarterly report is officially due July 1, 2011 for the second quarter.

For further assistance, please contact your Frontier Account Manager or send inquiry and reports to Frontier@cscabs.com.
