Carrier Customer Bulletin

Date of Bulletin: February 2, 2011
Notice #: CCBFTRNC00003 (Updated)
System Impacted: Access Ordering Web Interface, UOM, and NDM
Area Impacted: Access
Region: Frontier 13 Region (aka North Central Region)
Date Effective: March 19, 2011

Frontier 13 Region will implement version 42 of the ASOG (Access Services Ordering Guidelines) within its Pre-order and Ordering interface systems. The systems affected are the Access Ordering Web Interface, UOM (Unified Ordering Model) gateway, and NDM (Network Data Mover).

During the release implementation, Access Ordering, UOM and NDM will be unavailable for processing transactions from 7:00 PM ET on Friday, March 18, 2011 until 7:00 AM ET on Monday, March 21, 2011.

The new ASOG 42 edits can be accessed by going to the following link, then clicking on the link for the Business Rules for the type of ASR method of interest to you. You may then choose "42" under the ASR Version drop down menu, and the edits will be located under "Related Documents and Links".

Please note that Frontier 13 will not be supporting the new value of UNI in the Bandwidth (BDW) field for our Transparent LAN Service (TLS) products. In addition, Frontier 13 will no longer accept IP Address and Subnet Mask information in the remarks field, the IP Address and Subnet Mask fields implemented in ASOG 41 and 42 should be used.
